

Kingston Upon Thames Churches HA choose QL Load & Go from Aareon

Kingston Churches is a smaller housing association, managing 250 properties in the Royal Borough of Kingston and surrounding areas.

Load and Go has been developed specifically for the smaller housing organisation, such as KCHA, who manage 600 or less units to ensure that they are able to benefit from a fully integrated housing and finance package utilising Aareon's proven QL software. As an "out of the box" package, Load and Go is delivered with enough days and staff training allocated to Aareon's professional services teams to ensure a smooth installation.

After going out to tender, Aareon was shortlisted and other QL customers were visited to assess which solution would be best. As a result KCHA chose Load and Go as the best match for their requirements. This will enable them to benefit from the same level of high quality service as larger, better funded organisations.

A key factor in choosing QL Load and Go was that Aareon works alongside KCHA in implementing the system, enabling them to improve the use of their housing management system to fully develop a stable platform that will provide tenants with a high level of customer service.

It is the mission of KCHA to "remain an independent RSL providing high quality permanent social housing at affordable rents, and associated services, through a staff and Board of Management dedicated to serving the needs of our tenants". With Load and Go, KCHA will continue to provide dedicated service with the improved efficiency and best value that QL offers.
